

POSITION DESCRIPTION  
PHILADELPHIA EAGLES, LLC

## Senior Quantitative Analyst – Football Operations

### POSITION SUMMARY

---

The Senior Quantitative Analyst will join the analytics team within Football Operations. The position will expose candidates to all parts of the modern NFL front office, including player evaluation, game preparation, resource allocation, sports science, and player development. The job involves working with a wide variety of football data to draw insights and improve decision-making. A strong candidate for this role will have relevant work experience and/or graduate-level training in a quantitative discipline. Applicants should have a deep understanding of modern statistical techniques, with proven ability to execute on their ideas. We expect candidates to be well-versed in sports analytics research and methods.

### QUALIFICATIONS

---

- Outstanding analytical and quantitative skills
- 2-3 years of relevant work experience or comparable academic experience
- Advanced degree in statistics, machine learning, or econometrics
- Highly skilled in statistical software for data management and analysis
- Software development and data visualization skills are a plus
- Ability to communicate complex ideas to diverse audiences
- Passion for football
