Analytics Intern – Football Operations

POSITION SUMMARY

The Analytics Intern will work with the football operations staff on a wide range of analytical projects. Candidates will primarily assist in managing and analyzing data. Successful candidates will have strong quantitative skills and the technical ability to implement ideas. The internship will expose candidates to the day-to-day work of a modern NFL front office.

QUALIFICATIONS

- Strong analytical and quantitative skills.
- Experience in statistics, econometrics, or machine learning.
- Experience with data management and analysis in statistical software (e.g. R, STATA).
- Good communication skills.
- Ability to work independently with a hands-on approach.
- Passion for football.
